

You were a politician?

by Lidia Arranz Calvo 1º Bachillerato B

If I were a politician I would change a lot of things in the world. At first I would eliminate wars forever, then I would try to convince countries to solve their problems talking about them. I would destroy all weapons that are in the world. I would like people to respect animals and the environment; factories that pollute the sea and don't respect the ozone layer would have to close. If I could, I would end up with famine in poor countries. I would build hospitals, schools and roads and I would send them food, clothes, drugs and toys for the children. I think rich people should have less wealth and poor people who are starving should be less poor and much happier. I would like to change the injustices in the world. Thieves and murderers would go to prison and would never do it back again. If I were a politician, children wouldn't go to school so much and they would have more free time to enjoy themselves.

If I were a politician I would change a lot of things in the world...

I would destroy all weapons that are in the world.

I would end up with famine in poor countries.

Love, love, love ...

On Saint Valentine's day, a few of our students wrote some love letters and some love poems, here are some of them. Enjoy them.

Dear friend:

Hello, you have always known that I was your friend, but what you didn't know is that I love you. At the beginning I only saw you as a friend, but I won't lie to you; it wasn't a love at first sight, after so much time of friendship I realized how pretty and nice you are, and I highly value all those things. I don't care much about looks, although you are very pretty, but what I care for is the personality and the looks in you is something extra. To finish, I would like that our friendship would not break because I would lose a great friend.

With all my love:

Rubén Ontoso 4°C

XXX

Dear Princess.

I'm writing these few lines to show the great interest I have for you. When I'm near you, time goes by very fast, each moment next to you is like a wonderful gift. My life wasn't anything without you. From the first day I met you, my love for you, my Princess, has grown more and more every day, and there was one moment when my love was so big that nobody could have taken me apart from you.

I can breathe... if the air isn't next to you. Your kiss is a deep whisper of your love to me. I will give my life to feel your lips on my mouth. I've known the love of my life. I've fallen in love with your smile, with your hair, with your face... My heart can break if I'm not next to you.

I hope to see you soon. What are you thinking about? I think of you night and day. I can't wait to meet you again.

Lots of love.

Your lover

Andrés Lices 4° C

Dear Anastasia:
I am writing to you on this special date for me. I want to send you this letter to express all my love.

I have written this poem thinking about you and remembering all the beautiful things that we have lived together. I hope you like it and you feel this poem as i feel it.

Sergio Carrasco
4°C

*Some day you will know
why my lips died
word extincted
that they coldn't go out
Some day you will know
why from my face appeared
hot tears that
my face devastated
Some day you will know
why my footsteps chose
She way of your life and why
another way they went
Some day you will know
why he came in loneliness
Some day you will know
that I really loved you*

Dear Carolina:

We have been together for three years and I love you more than ever. This day I'm writing you because I want to show how much I love you and this poem is a proof of my love.

*When I see you
My heart beats fast
When I see you
More time I love you
When I see you
I think we are alone in the world
When I see you
I want to stay with you forever*

Well, what do you think of this poem? I hope you like it. Now you know my feelings for you and I need to know yours. I wish you a happy Saint Valentine's day. I wish I could spend it with you.

***I love you and I want to see soon.
A big kiss, sweet heart.***

Víctor Tobes, 4°C

Love, *love*, love ...

La Saint-valentin, les élèves de première année ont écrit des lettres d'amour, voilà quelques exemples.

Mon chéri,

*Ça va ? je suis très éprise, je ne peux pas arrêter de penser à toi.
Je me pose des questions tout le temps. Est-ce que tu m'aimes?
Comment sera ma vie sans toi?. Mon trésor, nous serons unis pour toujours?, je ne sais pas vivre si tu me manques, je t'aime beaucoup et je te montrerai tout mon amour tous les jours de ma vie.
Je ne peux plus parler de sentiments, c'est difficile de décrire les sentiments que je ressens pour toi.*

Je t'aime à mourir

Esther 1° Bac.

Ma chérie,

*Je t'aime beaucoup, mais je ne comprends pas pourquoi tu es partie. Est-ce que tu ne m'aimes plus?
Je ne peux pas vivre sans toi, tu me manques beaucoup, j'ai besoin de l'air que tu respirez.
Où es-tu, mon ange?. Qu'est-ce que j'ai fait pour que tu te fâches?, s'il te plaît, reviens avec moi! et c'est promis que je ne ferai jamais de bêtises.
Réponds-moi!, je te demande une deuxième opportunité.
Je t'aime beaucoup, sans toi la vie n'a pas de sens, tu es le soleil qui illumine ma vie
Ton chéri*

Charles 1° Bac

Mon chéri,

Je suis vraiment triste parce qu'il y a longtemps que nous ne nous voyons pas, et, tu me manques beaucoup.

Pourquoi est-ce tu ne me téléphones pas?, mon petit trésor, je t'aime bien et je ne peux plus supporter être sans toi.

Téléphone-moi le plus vite possible!, mon amour.

Je t'aime vraiment

Christine 1° Bac.

Chéri,

Je t'écris cette lettre pour te remercier, pour te dire que dès que nous sommes ensemble mon monde a complètement change, et sans toi ma vie n'a pas de sens. Tu es la personne la plus importante au monde, et je voudrais passer toute ma vie avec toi.

Quand nous sommes ensemble, tout est différent, merveilleux, maintenant

je sais que tu es mon soleil et que tout tourne autour de toi.

Tu es ma vie et ma mort. Quand tu es arrivé ma vie a été renouvelée, mais si tu pars tout deviendra triste et obscur, ça sera la mort, je ne pourrai jamais aimer un autre garçon, tu es unique, je ne t'oublierai jamais.

Avec mon coeur.

Laura 1° Bac.

Mon chéri,

Je suis très désolée parce que je ne sais pas si tu m'aimes. Est-ce que tu veux être mon Valentin? Mon bébé, je t'aime beaucoup et je ne peux pas être sans toi. Tous les jours je pense à toi et je me suis rendue compte que sans toi je ne suis rien.

J'attends avec impatience ta réponse, mon chou.

De gros bisous.

Leticia 1° Bac.

Love, *love*, love ...

LOVE POEM

You are the love in my heart
You are the flower of love
You can put love in my heart
You are the water in the
desert,
In the desert of my heart
You can make me fly in
My dreams with you
You can put love in me.

Javier Sánchez 4°D.

POEM

I find that I can't breathe
and I can't sleep
When he is not around
everyday is grey
When he is not here I'm down.
Maybe there is nothing more to
say
and in a funny way I am calm
because the power is not time
if he returns here
there won't be more aching,
or more sadness.
He is hopelessly addictive,
helplessly attractive
chemically reactive.
If he is not here I lack the air.

Love

With your eyes,
with your smile,
with your beauty
you illuminate
my heart
day and night.

Your kisses are
sweet and spooony.

When I see you
and you see me,
you cheer my days,
my weeks, my months,
my years.

You will always stay
in my heart
because I love you.

Maria Trascasa Carreño 4°A

How did I fall in love with you?

*Love is a big hope
in which you put all your heart.
It is built with passion and
devotion*

*It is a daily fight
In the evening and in the mor-
ning*

*Love without condition
to love with loyalty
love with passion
and with friendship*

*To give without asking for
anything in return
One of the biggest words in
the world*

Cristina Monte 4ºA

Remember when
we needed each other.
The best friends,
like sister and brother.
But, how did I fall
in love with you?
Falling in love so slowly
so quickly this time.
I can´t explain
These feelings.
The days go by and
I can´t avoid that
fire that looks like ice.
I won´t say those words
to forget them later on.
Don´t give an opportunity
to loneliness.
Darling, listen to me when
I say: "I love you".
I will love you more than
that.
There isn´t a day in which
I ask myself : why
don´t we try it?
So hold my hand and
don´t say good bye.

Elena Vallejo Eras, 4º A

IT´S ONLY HER

*All happened one night.
I was dreaming
Without light.
When she appeared,
She was kissing me.
Her pink lips, were kissing my
lips.*

*Who´s she?
I don´t know,
she´s in my dreams.
What´s her name?
I don´t know,
It´s only her.*

Alumno 4º E.S.O.

What can I do without you?

<i>Though the time passes And I am not here I hope that some day You will be with me.</i>	<i>Yes, I'm crazy about you I can't fake Though the sea gets dry Though the sky falls down My feelings Will never change</i>
<i>Not, because I love you Not, because you are part of me But because now I don't know how to live without you</i>	<i>Though the sun doesn't rise With the light of the day break I have always the sky And the light in the bottom of my soul.</i>
<i>I don't know what I can do I don't know what I can feel</i>	

**For Souc
By Luca
Because I love you**

Carlos Colmenero

Weimar's coach

This interview took place on Thursday, 11th December, 2003, in the "Príncipe de Asturias" Sports Hall, where the team trains every day. Carlos Colmenero, Weimar's coach, lives in Valladolid. He's about 38 years old and he comes to Aranda every day. He's the official coach, but the technical body is also formed by Esteban and Manuel Vecino. These are the answers to our questions.

1_ Do you think that we have enough players to keep the category or must we sign up a new player in December?

Well, I think we have a good team, you know. We have lost two matches for a goal of difference, so I think four more points will be good now. I want to begin to win the matches, and we will already be better in December. So I think it is not advisable to take a new player in December.

2_ What do you think about the disappearance of Dismar in a club that has another team in "División de Honor B"? Don't you believe that the reserve of young players has too much

importance to do without it?

Well, perhaps, but I cannot think about that because I'm the coach of the first team, not of the second team. This is a question for the people in general and for the staff of the club, the president, the vice-president, and for some other people. But I must think about our young people. We have young players like Mario Madrigal or Salvador; and we have a young team. Our players are about twenty years old: Viti Pedragosa, Alberto Camino, Valles, Nacho, Nano... So I think we can say that we are working mainly with young people.

3_ In all the teams of this category there is an international player. Do you think that we must sign up a foreign player in WEIMAR? Wouldn't it be interesting?

No, definitely. I think I'm a fan of the team, not of a player... a better player or a more important player, a foreign player or a national player. So I think, for me, it is more important to have a good team, not a good player.

4_ To put an end to the interview, what do you think about the supporters?

Ohhhh!Ohhhh! They are great! They are our most important "player" in these moments. We want to dedicate the victory this Saturday to them because I know that they are looking forward to it and we are, too. The players and technical body want to devote this victory to them.

by María de Pablo and Leticia Núñez

Chess

Chess is a thrilling game if you like to play it; in this game you need 2 players. When you are playing chess you need to think a lot, because you are in a battle. The chess is played in silence, because you want to win your partner. When you play chess a lot you learn, tactics and all the rule...

There are two colours: black and white, the person who has the white colour starts the game.

In chess the rivals have sixteen playing pieces. If you play chess you have to think of strategies and you need to think faster than your rival, you need to be cleverer than your partner.

One of the most famous chess players in the world is Kasparov. He was the teacher of Karpov, who won Kasparov in a World Chess Competition.

Fernando Alonso

the great surprise in the F-1

Fernando Alonso started in the F-1 in the 2001 season as pilot of Minardi where he was gaining experience in the difficult F-1 World. In the 2003 season, he gave a big jump when he was hired by Renault and he got spectacular results.

The last season was incredible for the Asturian pilot; He is 21 years old and he has got two-pole position and one victory in the Hungarian

G.P and several podiums as well. His team, Renault, stayed fright with the potential of the 21- year-old Asturian pilot that is breaking records in the world of F-1, because he is the youngest pilot to win a prize of F-1. In the season 2003 he and his Renault R23 flew along all circuits, got points in all the circuits.

Fernando Alonso came from the world of the karts. He had a famous sentence: "When I was 3 years old I asked for a Kart, at the age of 11, I wanted to be a cham-

pion, when I was 21 years old I dreamed of the podium and at the age of 22 , I won paradise".

This season 2004 will be when Fernando Alonso will not be a new pilot in formu-

than Trulli.

The new car is competitive because the aerodynamic is much better. The lateral parts and cap of engine have been changed this year. The first were made smaller than

the year before, then they have had to set special dispositives to evacuate the heat. The other novelty

la one, however, he will be the youngest pilot in the championship. We hope to see a nice competition between Fernando Alonso and Michael Schumacher and we hope our Spanish pilot will become the world champion of F-1. Jarno Trulli tried the Fernando Alonso's new car, whose name is R 24, in Montmeló but Fernando Alonso won with the old car. He improved in one second in relation with the time of his partner. Next day, Fernando tried the new car running two seconds faster

is the tap of motor, which is prolonged from the top of the car to the back aileron. The big secrets of the car, which Mike Gascoyne has invented, are the ten classic cylinders in V in the motor (these continue from the year before), and the 72° inclination grades between BANCADAS instead of the 110 in the old model. Each car costs 150000 - and the new engineer of Renault is called Bob Bell.
