

**A WONDERFUL WEEK IN
GERMANY
JUNE 2025**

THE BEGINNING OF THE ADVENTURE

In this photo, we were at the airport waiting to board the plane. It was very early, around 6:15 or so. It's in Madrid's Airport "Adolfo Suárez Madrid-Barajas Airport."

We were all very sleepy but at the same time eager to begin this unforgettable and unique experience.

ONE DAY WITH OUR FAMILIES

On Sunday we had a whole day to spend with our exchange students and families.

Each one did a different thing and Ainhoa and I went to the largest chairlift of Germany, where we could see Switzerland, France and Germany at the same time.

Near it there is a kind of mine where there are expositions of minerals. so beautiful!!

PAULA PORTILLO

This photo was taken in Freiburg, Germany, while we were taking a walk through the city with our friends and german exchange students.

I chose it because I loved the local culture in there, the way the streets are laid out, how people interact, the charming water canals where people cool off, also we noticed about the prices, they are so expensive, and the most important thing, the views. They have beautiful green areas that are very well maintained, and that's one of the main reasons behind those incredible views.

DAY IN THE GERMAN SCHOOL

This photo was taken in Ihringen, in the high school of our German friends, their high school was much bigger than ours. All the Spanish students had to come to the front to introduce ourselves to the Germans.

Then we saw a video with all the photos that were taken while the Germans were in Spain, it was very emotional.

FAMILY WEEKEND

These photos were taken in Germany,
somewhere near Ihringen. It was Sunday
with the family, and my German
exchange partner and her German exchange
friends arranged for us to go bowling together
with our families. Later that afternoon, we all
ate together, and later we went to a nearby town
for some ice cream.

FAMILY DINNER

These photos were taken at a Greek-style restaurant in Ihringen, Germany. I went to dinner with my German exchange partner and my exchange family. I had a great time, and there was a super nice waiter who told me two words in Spanish. The food was delicious, 10/10.

FAMILY BARBECUE DAY

It was my favorite day because we had enough time to be all the students (Germans and Spanish) together. And we had dinner with the families so when we got home everyone was more comfortable.

FREE DAY IN FREIBURG:

On this day we spent the afternoon doing shopping in Freiburg. We also visited that city. Then we could take some coffee and a snack, after that, we took a walk and we visited the Rathausplatz, which is like the old town hall of the city.

And finally, to end the day we walked in the streets sightseeing Freiburg and seeing all the shops in there.

HIKING AND BARBACUE DAY

This day in the morning we were walking for about an hour and a half to get to a house with plenty of space to play, we were playing German games of hiding and we ended up eating a barbeque to recharge energy.

THE ENDING OF THE ADVENTURE

All these photos are from our last day. We spent the whole morning in Zúrich before going to the airport to return home. It was a wonderful day because we went sightseeing along the city and at night we met up with our families again, but it was really sad too because that meant that our trip was coming to an end.

In Zúrich we saw amazing things like the biggest european clock, the Chinese park, the shopping street, nice buildings and a lot of ducks.
